This tender little lullaby was inspired by the beautiful story of the Rainbow Fish written by Marcus Pfister. It is fitting that the story could be read before enjoying the song. It's a great bedtime lullaby as it's soothing and gentle.

A beautiful movement which is part of the "Carnival of the Animals suite for children entitled the Aquarium is by Camille Saint- Saens" is a wonderful piece of music for children to explore and create movement to. They can pretend to be all sorts of ocean creatures.

Try and remember all those old fashioned rhymes like One fish Two fish Three fish.... Or; One Two Three Four Five once I caught a fish alive. Or rhymes for alliteration like; She sells sea shells by the sea shore. You could make up your own rhyme about the sea.

Enjoy your fishy tales stay safe have fun see you back again in the class room. Till then Stay Safe,

Kindest Regards *Kylie Cooper* Director and Owner of Vocal Enchantment.
